An aerial photograph of a modern, curved residential building situated on a small island in the middle of a body of water. The building features a large, white, rectangular volume and a curved section with multiple floors of glass and balconies. The island is landscaped with palm trees and greenery. In the background, a city skyline is visible under a dramatic sunset sky with orange and blue hues. The water reflects the sky and the building's lights.

Featuring eight, lighted clay  
courts with pro shop, full tennis  
program, and private instruction.

An artistic rendering of a modern pool area. In the foreground, several white lounge chairs with curved bases are arranged on a light-colored stone patio. To the left, a large, rectangular pool with clear blue water extends towards the background. A person is walking on the patio near the pool's edge, and another person is swimming in the pool. The background features a calm sea with a few sailboats under a clear blue sky. Several tall palm trees are scattered throughout the scene, and a large, curved, dark-colored overhang with white columns covers the right side of the pool area. The overall atmosphere is serene and luxurious.

The attended club pool offers incredible views of Biscayne Bay and the tiki bar is always close by for great beverages and tasty food.

Pool at The Markers

A woman with her hair in a braid is floating in an infinity pool. The pool's edge is perfectly aligned with the horizon of the ocean, creating a seamless transition between the water in the pool and the water in the sea. The sky is a soft, hazy mix of blue and orange, indicating a sunset or sunrise. On the right side of the frame, a branch with small pink flowers hangs over the pool. The overall mood is peaceful and luxurious.

## Grove Isle Associates

GIA, is a diverse partnership with over (eighty years) of combined development experience. The principals of GIA have spearheaded wide ranging projects throughout the United States, Europe, Mexico and Brazil. This diverse team of developers, asset managers and financiers have developed an extensive portfolio, including luxury condominiums, shopping centers, hotels, office towers, restaurants and custom homes. In addition, part of the group focuses strictly on large project financing throughout Florida and other parts of the world. At GIA, each development partner is proud to be part of Miami’s most anticipated residential development in the last 40 years. The company is fully dedicated to delivering a legacy product of outstanding quality and craftsmanship at The Markers.

## CallisonRTKL

Grounded in the belief that architecture is a powerful instrument for making the world a better place, CallisonRTKL blends exceptional design skills, superior project management capability, and creative vision to produce buildings that have long-lasting positive economic, social and environmental impact on communities and organizations. With offices in North America, Europe, the Middle East and Asia, the company has designed myriad projects including residential, retail, mixed-use, hospitality, medical, academic, transport, civic and cultural institutions in cities worldwide.

## EDSA

For more than 50 years, EDSA has been creating sustainable places to live, work, learn and play. Their portfolio of completed projects pays tribute to a life- long passion for creating distinctive and inspiring environments. As stewards of the land and the built environment, EDSA is attempting to improve the way the world looks, one project at a time with passion, integrity and the combined effort of our team.

ORAL REPRESENTATIONS CANNOT BE RELIED UPON AS CORRECTLY STATING THE REPRESENTATIONS OF THE DEVELOPER. FOR CORRECT REPRESENTATIONS, MAKE REFERENCE TO THIS BROCHURE AND TO THE DOCUMENTS REQUIRED BY SECTION 718.603, FLORIDA STATUTES, TO BE FURNISHED BY A DEVELOPER TO A BUYER OR LESSEE. We are pledged to the letter and spirit of U.S. policy for the achievement of equal housing throughout the nation. We encourage and support an affirmative advertising, marketing and sales program in which there are no barriers to obtaining housing because of race, color, sex, religion, handicap, familial status or national origin. This offering is made only by the prospectus for the condominium and no statement should be relied upon if not made in the prospectus. No real estate broker or sales person is authorized to make any representations or other statements regarding this project, and no agreements with, deposits paid to or other arrangements made with any real estate broker are or shall be binding on the Developer. All images and designs depicted herein are artist's conceptual renderings, which are based upon preliminary development plans, and are subject to change without notice in the manner provided in the offering documents. All such materials are not to scale and are shown solely for illustrative purposes. Renderings depict proposed views, which are not identical from each unit. No guarantees or representations whatsoever are made that existing or future views of the project and surrounding areas depicted by artist's conceptual renderings or otherwise described herein, will be provided or, if provided, will be as depicted or described herein. Any view from a unit or from other portions of the property may in the future be limited or eliminated by future development or forces of nature and the developer in no manner guarantees the continuing existence of any view. All plans, features and amenities listed and/or depicted herein are based upon preliminary development plans, and are subject to change without notice in the manner provided in the offering documents. No guarantees or representations whatsoever are made that any plans, features, amenities or facilities will be provided or, if provided, will be of the same type, size, location or nature as depicted or described herein. The sketches, renderings, graphic materials, plans, specifications, terms, conditions and statements contained in this brochure are proposed only, and the Developer reserves the right to modify, revise or withdraw any or all of same in its sole discretion and without prior notice. All improvements, designs and construction are subject to first obtaining the appropriate federal, state and local permits and approvals for same. These drawings and depictions are conceptual only and are for the convenience of reference. They should not be relied upon as representations, express or implied, of the final detail of the residences. The Developer expressly reserves the right to make modifications, revisions, and changes it deems desirable in its sole and absolute discretion. Ceiling heights are measured from top of slab to top of slab. As a result, actual clearance between the top of the finished floor coverings and the underside of the finished ceiling, drop ceiling or soffits will be less. All ceiling heights are approximate and subject to change. Renderings depict proposed views, which are not identical from each unit. No guarantees or representations whatsoever are made that existing or future views of the project and surrounding areas depicted by artist's conceptual renderings or otherwise described herein, will be provided or, if provided, will be as depicted or described herein. Any view from a unit or from other portions of the Condominium may in the future be limited or eliminated by future development or forces of nature and the developer in no manner guarantees the continuing existence of any view. Stated square footages and dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls between units and in fact vary from the square footage and dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes all interior structural components and other common elements). This method is generally used in sales materials and is provided to allow a prospective buyer to compare the Units with units in other condominium projects that utilize the same method. Measurements of rooms set forth on this floorplan are generally taken at the farthest points of each given room (as if the room were a perfect rectangle), without regard for any cut outs or variations. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length and width. All dimensions are estimates which will vary with actual construction, and all floorplans, specifications and other development plans are subject to change and will not necessarily accurately reflect the final plans and specifications for the development.
